

9 May 1967

Dear Sir:

Attached you will find two work statements, P-118, covering additional effort for Task Order #10 of Contract [REDACTED]. These additional work statements are a result of discussions held with your representatives on 21 and 27 April in which [REDACTED] was asked to address itself to multiple task problems at your facility.

STATINTL

STATINTL

The principal problem involved the Fiber Optic Viewer Digitization work. To this [REDACTED] replied with its proposal P-115.

STATINTL

The remainder of the work discussed was considered appropriate to our present T and M arrangement on Task Order #10. It is, therefore, submitted with this letter as work statements. The following is a brief breakdown of the two work statements and their cost:

STATINTL

[REDACTED]

The present status of Task Order #10 is as follows:

STATINTL

[REDACTED]

The *committed funds for work order #2 involved the checkout of two units which remain unavailable.

Please feel free to call me or [REDACTED] if you have any questions.

STATINTL

Sincerely,

STATINTL

WORK STATEMENT #1
FABRICATION OF CONTROL PANELS

1. Fabricate two control panels as follows:
 - a. Provide eight (8) preset/reset and zero reset switches for the [REDACTED] counters.
 - b. A master power on/off switch with power on indicator.
 - c. Connectors on the rear of control panel to carry preset/reset and zero reset functions to [REDACTED] counters.
 - d. Provide convenience outlets on rear of control panel, one to be unswitched for continuous operation of the [REDACTED] synchronizer.
 - e. Provide a 15 foot power cable, capable of handling a 20 amp load, to run from the control panel to a wall receptacle.
 - f. Functions of all front panel controls will be marked by a permanent type label or engraving.
2. Delivery of these panels will be 45 days upon receipt of your order.
